## RETA CARO COURSE

This 3-day industrial refrigeration training course is geared to prepare operators, managers, and risk management coordinators for the RETA CARO certification exam.

CARO – Certified Assistant Refrigeration Operator is an entry-level examination designed to identify whether an operator has the basic knowledge to function safely in an engine room under the supervision of a more experienced operator.

Topics covered during the sessions will include the following:

- Refrigeration Fundamentals
- The Refrigeration Cycle
- Properties of Refrigerants
- Saturated Refrigerant Tables
- Refrigeration Compressors
- Operation and maintenance of compressors
- Lubrication
- Evaporators/Cooling Units
- Condensers and High Pressure Receivers
- Purging

Lunch will be provided for all attendees.
