

2021 VIRTUAL AMMONIA REFRIGERATION TRAINING

The Annual Ammonia Refrigeration Training hosted by Resource Compliance and California Controlled Atmosphere is going virtual in 2021.

Our goal is to offer a wide variety of training modules to further develop your skills in the ammonia refrigeration industry. This year's virtual format can be completed at a time that best fits your schedule.

REGISTRATION INSTRUCTIONS:

To register for the **2021 Virtual Ammonia Refrigeration Training**, [click here](#) and complete the registration form.

TRAINING PLATFORM:

The virtual training modules will be emailed directly to each facility's contact person on **January 11, 2021**. The training modules include a web link to each training session presentation and the associated training quiz. All training presentations and quizzes must be completed by the end of **January 29, 2021**.

TRAINING CERTIFICATES:

Each attendee that completes all training modules and passes the training module quizzes with an average score of 70% or better will be awarded a certificate of completion for the **2021 Virtual Ammonia Refrigeration Training**. Certificates will be emailed to the facility's contact person by **February 5, 2021**.
